

UNDER MICHIGAN & BEYOND

EXPLORING EARTH'S GEOLOGIC WONDERS

*Dedicated to Tim Leach, co-founder
of Raven Hill Discovery Center*

Explore beneath Michigan's surface and beyond to Earth's crust, where ancient rock formations and mineral treasures hold clues to our geologic past, shaping the land and leaving behind a vast array of geologic resources that are crucial for sustaining life and driving human civilization forward. Visit often and explore this captivating and ever-evolving exhibit that just "scratches the surface" of the geological wonders found in our Earth.
