SPECIAL TOTAL SOLAR ECLIPSE ALL DAY FIELD TRIP!

APRIL 8, 2024 FROM 10AM - 4PM

A total solar eclipse happens when the Moon passes between the Sun and Earth, completely blocking the face of the Sun. The sky will darken as if it were dawn or dusk. The next total solar eclipse will be viewable in Michigan 20 years from now.

\$12 per person admission includes solar glasses

We are inviting a few select schools to join us here for an all-day field trip to enjoy the grounds and **view the Solar Eclipse at approximately 2pm** (best viewing time for our zone).
