Re: *slumped glass!*

Greetings to Everyone!

With no Discovery Camp this week, one would think it would be pretty quiet at Raven Hill. However, staff stayed busy with visitors, Boyne Mountain Adventure Camp field trip, a double birthday celebration and a *slumped glass* class!

Co-founder Tim Leach created this slumped glass raven in 2008 as part of a series, starting with a "raven egg".

Summer hours are in effect until Labor Day weekend. Raven Hill is open weekdays from 10am to 4pm through Friday, September 2nd. Then, starting Saturday, September 3rd, Raven Hill will be open weekends—noon to 4pm on Saturdays; 2pm to 4pm on Sundays and any other time by appointment through the fall, winter & early spring.

Raven Hill's little workhorse of a kiln is used for slumping glass, as well as fused glass, precious metal clay and Egyptian paste! Schedule a class soon!

With slumped glass, geometric, freeform or realistic are all "fair game" for artists of all ages.

A whimsical tree is ready for slumping! The tree includes multiple colors of glass and even a "hole" in the tree trunk for some little critter!

Small pieces of millefiori (Italian for "thousand flowers") glass form "flowers" on this slumped glass tree!

Call 231.536.3369 or email info@miravenhill.org to make reservations for celebrations, appointments to visit and explore or arrangements to express the artist within by taking a variety of art classes, while learning the science & history behind the art!

Hope to see you soon,

Cheri
